

Building Hope Brick by Brick

ACTIVITY 4

Building the Kingdom

TIME:

20 minutes

PREPARATION/RESOURCES:

Bible or Bible story book with pictures

Video (optional)

Read the story Jesus told about two housebuilders in Matthew 7: 24-29 (or use a *Children's story Bible*)

Use this Lego video to help tell the story
([link on website](#))

Jesus told this story of two house builders who decided to build their house very differently!

Where did the wise man build his house?

Who built their house on the sand?

Which house do you think would be stronger when the winds and storms came?

At Habitat we want houses with strong foundations just like the rock, so that when rains, floods, storms come the people stay safe inside. Across the world we want to help people whose homes don't have strong foundations and build alongside them to have stronger, safer homes. We also help those whose homes have been damaged or lost during major weather events right across the world. Having a safe home is a strong foundation to build the rest of your life upon.

Jesus wasn't just talking about houses in this story – He wants us to build our lives upon Him the strongest foundation – to trust Him and follow Him in all we do.
